Document ID	DOC-100	Review by	2025-10-02

How is the benefit in kind for a company car computed? It depends on the catalogue value, the CO2 emissions and the age of the car.

Example 2024: catalogue value EUR 42,000.00, CO2 percentage 5.5%, factor 6/7: $\text{EUR } 42,000.00 \times 5.5\% \times 6/7 = \text{EUR } 1,980.00$ per year, or EUR 165.00 per month.

Does the employee have to contribute? A personal contribution reduces the benefit in kind.
