Does commuting count as a business trip? No. Home to work travel is covered by the commuting allowance, not by the kilometre allowance.

Can the employer pay more than the flat rate? Yes, if the employer can prove the real cost. Otherwise the excess is taxed as salary.

### Example

800 business kilometres at the flat rate of July 2026:  $800 \times \text{EUR } 0.4280 = \text{EUR } 342.40$ .
