Country	Belgium	Language	English
Document ID	DOC-090	Review by	2027-03-18

Purpose

This procedure explains how Payroll Ops BE computes termination pay when the employer ends the contract without notice.

Formula

Weekly pay = monthly gross x 3 / 13. Termination pay = weekly pay x notice weeks from the legal table, plus the value of benefits in kind and variable pay over the last 12 months.

Example

Monthly gross EUR 4,550.00, 10 weeks notice: weekly pay EUR 1,050.00, termination pay EUR 10,500.00.
